

# Smarter Cloud Storage Sync with Smartsheet

**Powerful. Flexible. Integrated. Business Intelligence.**

Exploit the collaboration and analytics power of Smartsheet and SBP tools with disconnected systems

**Connect to Google Drive or Dropbox cloud storage and sync Excel files or Google sheets to and from your Smartsheet environment**

- **User-friendly**
- **Managed** entirely with Smartsheet
- **Run** within your existing IT environment
- **No coding needed**
- No software installation needed

- You have an ERP with no API access to the data but want to analyse, report and share through Smartsheet.
- **Export** the data to a report and **sync** it to Dropbox. The data will automatically appear in Smartsheet.

Take your work **offline - on the road - into the field:**

- **Sync** a spreadsheet to your laptop via the cloud
- Make those sales or engineering visits
- **Resync** automatically when you get back online

- **Fully automated**
- Runs automatically every 10 minutes
- Hunts changes
- **Updates** all connected sheets

- **Automatically integrate** supplier price lists, customer event schedules, logistics, anything that can be saved in a spreadsheet and accessed by cloud storage
- **Collaborate** with external partners who don't use Smartsheet
