

The Smarter PDF Creator

Automate the creation of PDFs from Smartsheet Data

- Trigger **PDF creation** manually or automatically
- **Create any document you like:** forms, questionnaires, invoices, product lists, contracts, etc.

What our Smarter PDF Creator can do for you

- Take Smartsheet data from multiple sheets and **create a PDF** that will attach to the relevant row in Smartsheet
- **Create tables** of any length and **insert images** from Smartsheet

What our Smarter PDF Creator can do for you

- Use in conjunction with **Smartsheet's Control Center** to automatically create PDFs within any Control Center asset
- **Control the look and feel** of your templates in a Google Doc

USE CASE

Smarter PDF Creator can create **multi line quotes or invoices**

Pull in data from multiple sheets in a one to many relationship

USE CASE

Smarter PDF Creator can **create a brochure** with images and data held in one or more Smartsheets

USE CASE

Smarter PDF Creator uses **Smartsheet's document version control**

Triggering a PDF multiple times will create **several accessible versions** of the same document
