

Smarter Tools for Sysadmins

Confidence. Consistency. Speed. Accuracy.

Understand and manage your Smartsheet estate with our suite of powerful tools

SMARTER SEARCH AND REPLACE

- A truly **automagical** feature allowing **global updates** to be executed across your organisation
- **Automatically rename** workspaces, folders, sheets, and columns
- **Update** column properties and cell values

SMARTER PERMISSION EXPLORER

- See and **manage access permissions** across **ALL** your Smartsheet items
- **View** overall summaries, view by user, by Smartsheet item
- **See** information not visible through Smartsheet directly

SMARTER HOME MANAGER

- Quickly **survey** all Smartsheet assets
- **Identify** unused sheets
- **Review** the number of rows, columns, cells, and cell links in each sheet

- **Correct** wayward naming consistency
- **Align** column names across sheets for multi-sheet reports
- **Duplicate** a workspace and replace a few values to set up a new project
- **Update** a product name
- **Replace** a contact

- **See** who editors have shared a sheet with
- Quickly **find** all Smartsheet items shared to a particular user
- **Audit** security for a set of assets
- Easily **identify** permissions to give new users

- **Ensure** your sheets stay within Smartsheet size limits
- Help **identify** older assets that need updating, replacing or archiving
