

# Smarter Word Document Generator

Reduce cost. Reduce errors. Increase productivity. Unleash your talent.

- **Generate Word documents** from Smartsheet cells across multiple sheets
- **Attach documents** to a row or a sheet
- **Send documents** to a user

- **Format text**, such as headers, headings, bullets, indents, styles or...
- **KEEP THE SMARTSHEET FORMATTING**, including conditional formatting

- **Integrate** automatic document generation seamlessly into your working practices
- Keep the **single source of truth** in one location reducing integrity and duplication issues

- **Automatically document** key business information processes, systems, data, client communications

- **Free your valuable employees** from document generation to focus on what they do best

- Take an **automatic record** of meeting minutes, outcomes, proposals
- **Capture** a snapshot auditable content
